

StockMate is the liquor Stock Taking system that your business needs. Super easy to use, highly durable and exceptionally accurate.

StockMate will drastically reduce the time it takes to do a stock take and will help eliminate losses caused by unmanaged bottle usage and inaccurate counting.

StockMate is a low-risk investment for your business. With StockMate's rental and maintenance plan, you rent the machine at a low monthly fee and let us take care of the rest. No long-term contracts, no upfront capital costs and no maintenance and warranty issues.

STOCKMATE

Bar Scale

WITH STOCKMATE, DOING YOUR STOCK TAKE IS AS EASY AS 1-2-3

SCAN

Scan the barcode on the bottle using the scale's built in 2D barcode scanner.

WEIGH

Simply place the bottle on the scale and the scale will calculate the number of shots remaining.

PRINT

As soon as the bottle is removed, Stockmate will automatically generate a printout.

THE UNIT

 Built-in Barcode Reader to scan the manufacturer's barcode off the bottle.

 Industrial components that are built to last in a tough environment.

 Pre-loaded database of over 1600 different bottles.

 Saves you time and money. Stock takes are faster and more accurate, eliminating unnecessary wastage.

 We take into account individual alcohol densities to give you the most accurate weighing possible.

 Easily add your own, or custom bottles. Our friendly customer support is always there to help if needed.

 Free customer support.

 Free PC reporting software.

 Annual calibration.

 Unlimited service on the machine. In the unlikely event it breaks down and needs offsite repairs, a replacement unit will be supplied.

 Unlimited access to all future device updates including hardware and software.

 Month-to-month agreement with no long-term contracts.
